*These 25 trees shined at the Cross Laminated Timber Roof at Ketelplein during Dutch Design Week.*

We will plant the trees to make an Indian Summer for our children and grandchildren.

We volunteers of the Arboretum would like to plant together with you.

Suggestions? Is there any expat community that would like to plant a special tree at the Arboretum. Like a Shenar-tree for the Iranian community. Any suggestions are welcome. Also initiatives to commemorate an event with a tree planting.
